

# Ind-Tech Dispensing Solutions

## WHAT CAN OUR MACHINES AND TECHNOLOGY DO FOR YOU?

### CLOUD-BASED TECHNOLOGY

Making machines as reliable as possible with little to go wrong and 99.7% first time vends.

### DATA IN REAL TIME

Machines are always connected, meaning information is available immediately, when you need it

### CONTROL YOUR STOCK

User restrictions, stock limits, transactional reports and usage data, to name just a few – means you know who has it and when it was taken.

### ACCESS DATA FROM ANYWHERE

Access your data on any internet connected device, meaning no matter where you are, you can stay informed.

### TRIED, TESTED AND SUCCESSFUL

Numerous customers confirm proven savings and ongoing benefits from using our systems in managing stock and its movements.

### SAVE YOU MONEY

People can only access the items you allow and to the quantities you specify.

### SEAMLESS VENDING EVERY TIME

130,000 items tested with over 40 different coil types designed, so no matter what you want to vend, we can provide a solution.

### ONGOING SUPPORT

Once implemented our dedicated team work in partnership with you in offering ongoing support and help proactively to improve your business.

### WE ASSIST EVERY STEP OF THE WAY

From pre-configuration through initial setup, with installation times from 1 hour, full training included and on-going support always available.

### NO MORE OVER-ORDERING

We monitor stock levels and usage so ordering is kept as efficient as possible and maintain the stock levels you determine.

### ACCESS CONTROL

No need to implement new systems; we use your existing ID systems in the machines to keep disruption to a minimum.
